Programme overview / users' instruction

The courses of the master's degree programme in Jazz Music are divided into 5 categories:

Principal study
 Ensemble
 Credits (1680 hours) *
 Research
 Theory
 Individual credits
 Credits (280 hours)
 O credits (560 hours)
 O credits (280 hours)

In this part of the Study Guide you can find the descriptions of the courses for all curricula except those of Composing for Film and Live Electronics.

The descriptions of courses in the categories 2-4, and also several options for the choice of Individual Credits (category 5) are listed in this part of the Study Guide.

The descriptions of Principal subjects (category 1) can be found in Part 1 of the Study Guide.

Descriptions of the Electives which are part of the categories 4 and 5, can be found on the CvA website (under Study programme of the Jazz Master).

By using the function "Ctrl+Click" on your computer you can go directly from the Table of Contents to the selected course description.

^{*} In the programme Composing for Film the component Ensembles is replaced by Film Projects. In that programme, both the Principal Study and Film Projects weigh 40.

Ensembles

During the two years of the master's degree program, students are required to take four ensembles (20 credits = 5 credits per ensemble).

Each semester students select, in accordance with their principal subject coordinator and the ensembles coordinator, one specific ensemble. Some students will be required to participate in projects with the Concert Big Band in December and April, and, if possible, the North Sea Jazz Festival in July, dependent on their principal subjects. Participating in all projects together could equal one ensemble module (five credits). Additionally, students participating in a special project will earn one credit per project.

For registration, please send an e-mail to the ensemble's coordinator before June 22nd, 2023. Prior to final enrolment to an ensemble, the student's principal study teacher and/or department head are sometimes consulted. Under certain circumstances, students may even be enrolled to a particular ensemble for the purpose of completing the group.

N.B. Participating in an ensemble constitutes a commitment; students' attendance is always required. If a student is truly unable to attend a session or rehearsal, he/she will be responsible, in consultation with the teacher, for finding an adequate replacement whom he/she must instruct in advance for the purpose of ensuring continuity. Afterwards, he/she will then ask the replacement to inform him/her of the agreements and headway made. Failure to do so could lead to the withholding of credits.

Jazz ensembles coordinator: David de Marez Oyens (d.demarezoyens@ahk.nl)

Jazz and Improvisation Groups

During a semester you will play, review and analyze the music of a jazz giant or the works of a great classical composer. You will be required to use what you have learned in your own compositions/arrangements and improvisations.

Tristano Clinic Ensemble

Lennie Tristano was a jazz pianist and composer who became a very influential teacher designing his own method for jazz improvisation. Many great jazz musicians such as Lee Konitz, Warne Marsh, Bill Evans and many others have spent years studying with Tristano. His influence is still present in the playing of musicians like Mark Turner and others and his method offers an endless variety of ways to approach jazz- harmony.

In this course we will listen to his music, study some of his exercises, we will transcribe and study exemplary jazz solos that Tristano gave as homework to his students and of course we will be playing his compositions, mainly alternative themes on existing chord changes. During the course you will play, review and analyze the music of Lennie Tristano and you will be required to use his compositional techniques in your own compositions/ arrangements. The requirements for this ensemble are affinity with jazz, an advanced playing level and enough time (one hour a day) to study themes, exercises and transcriptions and practice.

Course Details

teacher Jasper Blom

period le of 2e periode, 1,5 lesuur

class size 8-10

examination attendance (min. 80%), evaluations during the lessons,

and a final concert/recording

credits 5 for a term

Monk group

Monk was one of the founders of bebop and is considered to be one of the giants of jazz. His playing and writing were unique, and he made some major contributions to the standard jazz repertoire.

This ensemble focuses entirely on Monk compositions, there is no sheet music, everybody will play from memory. Additionally, we will study and transcribe some of his voicings, listen to his music and watch the documentary Straight no Chaser about the life and music of Thelonious Monk

During the course you will play, review and analyze the music of Thelonious Monk and you will be required to use his compositional techniques in your own compositions/arrangements.

John Coltrane Group

In this group the focus will be on the music of the John Coltrane Quartet (especially the years of his classical quartet, 1962-1965). Compositions such as Afro Blue, Impressions, Countdown,

Giant-steps, and Meditations are explored, and a special focus will be given to Coltrane's monumental recording A Love Supreme.

During the course you will explore Coltrane's approach to modal jazz, 'Coltrane-Changes' and super imposed changes. You will play, review and analyze the music of John Coltrane and you will be required to use his compositional techniques in your own compositions.

Charles Mingus Group

Mingus's compositions, improvisation, and musical attitudes shaped and transcended jazz trends of the 1950s, '60s, and '70s.

Charles Mingus's approach to improvisation and compositions will be the focus of these lessons. During the course you will get acquainted with Mingus's composition techniques, orchestration, and instrumentation approaches and look at how his philosophy is reflected in his music.

Students will be challenged to use Mingus' approaches and techniques in their own new arrangements.

'Match Fixing': Classical repertoire group

This course focuses on ways to incorporate elements from the works of great Classical composers (such as Scriabin, Beethoven, Richard Strauss, Guillaume de Machaut) in your own music. You will discover new things about form, harmony, melody or rhythm and find a tasteful way to apply the essence of these works in your own arrangements and/or compositions. Credits are only awarded if the assignments are completed within the given time frame.

Students bring in pieces which will be tried out during class. We will experiment with it and improvise on it, until it crystallizes into an arrangement.

'A tune a Week' Ensemble

These days, the only way to get your band booked is to write new original music. It is also an important way to translate the stuff that you hear in your head in an ideal way and raise your annual income simultaneously. It is easier than you think; it is actually just plain work. In this ensemble I expect every week from at least two members new compositions that comply my directions of a ballad, a rock song, a pop song, an odd meter song, a Brazilian song etc.. It will force you to start with a rather mediocre idea and I'll teach you how to turn this into great stuff. After a while you will understand that it is a matter of quantity to produce the occasional masterpiece! Why play compositions by Jason Moran or Chris Potter if you can write it yourself?

Course details

teacher Yuri Honing

term 1st or 2nd term, 1,5 hours

examination attendance (min. 80%) and performance during the lessons and a

final concert/recording

credits 5 for a term

Composition Group

Focusing on the student's own repertoire, this ensemble will provide a set-up of compositional techniques and develop the student's insight into their own repertoire. Different composition techniques are addressed and diverse forms are used, from the traditional jazz forms to the structured/free improvisation forms. Students are also encouraged to give suggestions about the compositions of others in the group. Students are expected to write a new composition every three weeks, each one in a new style, and arrange it for the setting of the ensemble. Credits are only awarded if the assignments are completed within the given time frame.

The Contemporary Large Ensemble

This ensemble will focus on arranging techniques, orchestration, forms, styles and interplay within a large ensemble formation. During the course we will explore and discuss other similar works by known contemporary large ensembles (among others, Steve Lehman, David Binney, Dave Holland).

The objective is to provide the students with large ensemble experience, different orchestrations and formations and the use of electronics with contemporary (original) repertoire. From the beginning of the course, students will be required to compose new tunes and arrange their own pieces for a large ensemble.

Course details

Music from Other Cultures

Learn from music from other traditions and cultures, exploring its specific rhythmic, harmonic and form characteristics. After reviewing and analyzing you will be required to use what you have learned in your own compositions/arrangements and playing.

Latin Jazz Group

Latin jazz is a genre of music combining Latin-American rhythms with American jazz. During the course the students will play compositions by great latin jazz icons like Irakere, Emiliano Salvador, Maraca and Timbalaye, review and analyze the material, after which they will be required to use what they have learned in their own compositions/arrangements and playing.

credits 5 for a term

Advanced Rhythm - Improvisation

Please note: this is the course that up to the 2019-2020 was called 'Contemporary improvisation through non-western techniques'

The expansion of rhythmical possibilities has been one of the cornerstones of improvised music from 1960s until now. Most improvisers nowadays face music influenced by, among

others, Dave Holland, Weather Report, Steve Coleman, Aka Moon, Vijay Iyer, Miles Okazaki, Steve Lehman, Avisai Cohen, or elements from the Balkans, India, Africa or Cuba.

Today's jazz, or recreation of standards following the rhythmical developments of the last few decades, demand a new approach to rhythmical training, a training that will provide musicians with the necessary tools to face with accuracy more varied and complex rhythmical concepts, while keeping the emotional content. The programme 'Advanced Rhythm' addresses ways in which the Karnatic rhythmical system can enhance, improve or even radically change the creation (be it written or improvised) and interpretation of rhythmically intricate jazz music.

The incredible wealth of rhythmical techniques, devices and concepts, the different types of Tala construction, the use of rhythm as a structural and developmental element and, last but not least, the use of mathematics to sometimes very sophisticated levels in South India, enable the western musician to improve and enhance their accuracy and/or their creative process and make the study of Karnatic rhythm a fascinating adventure of far-reaching consequences.

Therefore, this 4-year programme is directed at improvisers who want to attain a broader view of rhythmical and structural fields. The rhythmical concepts of polyrhythm, polypulse and irregular groupings used in South India provide a very flexible method with which the student can experiment without trying to copy Karnatic music. All the topics are re-structured to enable the student to work only with the concepts and techniques. Each year the student decides whether to continue onto the following year or not.

Improvisers tend to be performers and creators simultaneously. Therefore, the emphasis of the course lies on a combination of rhythmical techniques to improve their accuracy, along with creative concepts that can be used to compose pieces or improvise solos.

During the last two months of the year students will organize a group, or participate in one (trio - quintet), with which will they prepare a guided improvisation that will be performed at the end-of-year concert.

Fusion / Crossover Groups

Learn how to incorporate different musical styles and vocabularies into your own personal musical statement. Thus, you will create a personal rendition of a tune, whether already existing or newly composed, using the qualities of your fellow band members.

Pat Metheny Acoustic Group

Being one of the foremost guitarists of his generation, Pat Metheny took composing seriously from the beginning. Highly influential for over four decades and expanding his territory from jazz to pop to fusion and free-jazz, Metheny does not accept any borders. During this course the ensemble will play, review and analyze Metheny's music. The students will be required to apply Metheny's compositional techniques in their own writing. Coached by saxophonist/composer Yuri Honing, who worked with Metheny himself, all aspects of his music, the rhythm, harmony, form, orchestration and his unique sense for good melody will get the attention it deserves.

Course details

Teacher Yuri Honing

term 1st or 2nd term, 1,5 hours per week

class size 6-8

original composition and/or arrangement and a final concert

credits 5 for one term

Funk/Rock/R&B Group

The students choose the starting point, the repertoire. For each tune, already existing or newly composed, one student takes the responsibility to develop it into a personal rendition, using the qualities of their fellow band members. Thus different musical styles and vocabularies will be incorporated into in your own personal musical statement. From a small basis-repertoire, students strive towards an expansive programme which is directed towards at least one stage performance per term.

credits 10 for the whole year

Artist Groups

The special feature of the 'artist group' is that the teacher regularly is a member of the ensemble, sharing their vision on music through their compositions, arrangements and of course their playing. This way the students get a deeper understanding of the teacher's special composing, arranging and playing techniques.

'Amsterdam Real Book' group with Michael Moore

The special feature of the 'artist group' is that the teacher regularly is a member of the ensemble, sharing their vision on music through their compositions, arrangements and of course their playing. This way the students get a deeper understanding of the teacher's special composing, arranging and playing techniques.

In the 1970s and 1980s in Amsterdam there was a lot of research done into the relationship between composition and improvisation. The composers involved, Misha Mengelberg, Willem Breuker, Guus Janssen, Theo Loevendie, Maarten van Regteren Altena, Maurice Horsthuis, and others, were trained in both the classical and, to some extent, the jazz traditions. They developed their own aesthetics and systems of organization.

In this group you will experience some of their pieces as well as those of later generations (Ab Baars, Cor Fuhler, Eric Boeren, Joost Buis), and others who influenced and were influenced by these developments (Sean Bergin, Franky Douglas, John Zorn, Michael Moore). The students will also learn about free improvisation, finding your voice, and role in the total soundscape.

Course details

final concert/recording

credits 5 for a term

Harmen Fraanje Artist Group

This ensemble is about considering your compositions not as a static and fixed structure but as a dynamic and holistic process with endless possibilities. Your compositions can function as a tool to define where (kind of) to meet each other in the musical spectrum. So, meeting each other in the music is the goal, not to execute the composition/material as perfectly as possible. The lessons focus on sensitivity, finding a specific energy, and how to transform this into colors and sounds.

Course details

Teacher Harmen Fraanje

term 1st and/or 2nd term, 1,5 hours

class size about 8

examination attendance (min. 80%) and performance during the lessons and the

concerts/recording

credits 5 for a semester

'Parameter Approach' group with Reinier Baas

The special feature of the 'artist group' is that the teacher regularly is a member of the ensemble, sharing his vision on music through his compositions, arrangements and of course his playing. This way the students get a deeper understanding of the teacher's special composing, arranging and playing techniques.

How do you practice composition? Based on the 'Parameter Approach' - Baas' new composition and analysis method - this ensemble focuses on the students' improvement of technical proficiency as composers. Tools and techniques for the development of ideas into vocabulary, as well as guidelines for notation and orchestration will be discussed. Reinier's compositions will be used as study material and as a point of departure for the students' own work, but works by, among others, Wayne Shorter, Henry Purcell and Arvo Pärt will also be discussed. The students are encouraged to write new compositions, which will be performed in class. The final performance is a suite, written collectively.

Course details

Teacher Reinier Baas

term 1st and/or 2nd term, 1,5 hours

class size about 8

examination attendance (min. 80%) and performance during the lessons and the

'Improvisation/Interplay Concepts' group with Tineke Postma

The special feature of the 'artist group' is that the teacher regularly is a member of the ensemble, sharing their vision on music through their compositions, arrangements and of course their playing. This way the students get a deeper understanding of the teacher's special composing, arranging and playing techniques.

'Art Blakey would hear young drummers and say, "You have a lot of technique. Everything you play shows me you've learned your lessons well, but where are you? What's your story? Tell me your story!"

In this ensemble we will work on your personal style and approach to improvisation, expression and interplay. In this process, besides raising awareness of your musical identity, we will explore various concepts from masters such as Kenny Werner, Wayne Shorter, Ralph Alessi, Lee Konitz and Greg Osby.

Course details

Big Bands

The jazz department offers two big bands for students to work on their big band routine. The weekly rehearsals, separate section rehearsals, special projects, guest teachers and concerts make playing in one of the big bands a valuable experience.

Please note: auditions for rhythm section players will be held in the third week of June.

Tuesday / Thursday Bands

Students can sign up for the big bands at different moments during their master programme, depending on their principal subject. In addition to the weekly big band rehearsals there are separate section rehearsals.

teachers Tuesday Big Band: Johan Plomp; Thursday Big Band: Ilja Reijngoud

term 1st and/or 2nd term, 3.5 hours per week. Horns are required the

whole year, and rhythm section for one term

class size 17-18

assessment attendance (min. 80%) and evaluations during the lessons, workshops

and concerts

credits 3 for a semester, 5 for the whole year (including the section

rehearsals)

Section rehearsals lead by the following teaches:

saxophone Marc Scholten and Jasper van Damme

trumpet Erik Veldkamp

trombone Martijn Sohier, Ilja Reijngoud

rhythm Lucas van Merwijk, Johan Plomp and/or Frans van der Hoeven, Haye

Jellema

NB: auditions for rhythm section players will be held in the third week of June.

Student Ensemble

Students have the possibility to organize a band, with repertoire and study objectives decided by the band members themselves. Please discuss these subjects with the group before signing up.

The student who signs up will be considered as the group leader. He/she is responsible for all communications to the group members, the band coach and the ensembles coordinator, and for booking rehearsal rooms and preparing, organizing and leading the rehearsals.

The group will get a set weekly rehearsal time, and can choose out of a selection of teachers. The teacher is not the leader who decides what happens, but more of a coach who gives feedback roughly six to eights times a year. After one semester the progress of the group is reviewed, and depending on the development, they will be allowed to continue to do the next semester.

Research

SUBJECT	RESEARCH
Course content	The student works independently (with assistance from a coach) on research related to his/her principal study, thoroughly pursing a line of inquiry. To broaden students' knowledge of their specialization, it is recommended to choose a research topic related to the specialization.
Learning objectives	To be able to signal problems and challenges in the research field, and to couch these in a good research topic. To be able to conceive a methodological approach to solve the central question. To be able to position oneself in relation to those who have dealt with the same or related topics. To be able to convincingly and engagingly present ideas, both written en verbally.
Course type	Mandatory
Level	MA 1 and MA 2
Teacher(s)	Research coordinators Walter van de Leur, Yaniv Nachum. Students may choose their own research coach from the list of teachers at the CvA. In exceptional cases an external expert may be consulted.
Course credits	10 credits for two years
Literature, repertoire	Research Guide for Master Students. Further literature and/or repertoire to be determined individually, in relation to the chosen research topic.
Course format	Independent, with coaching
Assessment	A written report of the research and a public presentation. Students may choose from the following formats: a lecture-recital (45 minutes) a workshop or masterclass (45 minutes) a lecture (30 or 45 minutes, dependent on the topic) a thesis presentation, consisting of a short report lasting five to ten minutes and a discussion with the committee (20 - 25 minutes)

Assessment criteria	originality of the topic quality of research line of inquiry methodology written report quality of presentation (verbal and written) motivation and commitment
Language	English (Dutch is also possible; please consult research coordinators)
Schedule	Planning conform to agreements with research coordinator and research coach
Location	CvA, Oosterdokskade 151
Information	Coordinators Master Research: Michiel Schuijer, Walter van de Leur, Yaniv Nachum, Jed Wentz

Theory

The theory component of the master's degree programme in Jazz Music consists of a mandatory part and an elective part. In the course of the two years of the master's programme, every student must earn up to a total of (at least) 20 credits for the music theory component.

Mandatory part

The courses 'Music Theory' and 'Composition - Creative Writing' are mandatory. Together these courses amount to 10 credits.

Music Theory and Creative Writing	
 There are three main areas of focus: Recognizing and developing the identity of an original composition Playability Technical writing proficiency 	
In the lessons students learn both to recognize and stimulate the creative process leading to writing original compositions as well as the technical component, necessary for writing effective compositions: melody, harmony, rhythm and form.	
Mandatory	
MA 1 and MA 2	
Johan Plomp, Florian Ross, Yaniv Nachum, Henk Huizinga, Reinier Baas, Ben van Gelder and Walther Stulmacher	
10	
Will be announced during the course	
At the end of this course each student should hand in four compositions, both in the form of a recording as well as a complete chart.	
 Students are assessed using the following criteria: Artistic value of the compositions Expressiveness of the compositions Playability of the theme Playability of the whole composition Performance of the recording Use of thematic material Rhythmical development Harmonic awareness Sense of the form Quality of the arrangement and orchestration Use of contemporary techniques or instrumentation 	

	Didactical development during the year
Language	English
Schedule	t.b.a.
Location	t.b.a.
Information	

Elective part

For the elective part of the Theory component the student can choose courses for at least 10 credits. The study load is 5 or 10 credits per course. The choice can be made from the courses in music history, philosophy, music theory, analysis, arranging and composition, as listed below. Detailed descriptions of these electives can be found on the CvA website.

All CvA master students will receive a registration form by e-mail in order to apply for electives. For questions about the electives or application procedure, please contact the coordinator of the Jazz master electives Barbara Bleij (b.bleij@ahk.nl).

The following electives are offered:

Category	Subject	Teacher
Composition, Analysis and Performance	_	Jasper Blom, Frans van der Hoeven
	Where is that Melody?	Yuri Honing
	Get on Track - New Tools for Composition and Improvisation	Harmen Fraanje
Critical Reflection: History, Analysis, Philosophy	Reading Black Music Key Texts	
	Duke Ellington & Billy Strayhorn	Walter van de Leur
	Thinking Big: Jazz Composition and Performance Beyond the Chorus Form	Patrick Schenkius, Barbara Bleij & others
	Freedom and Improvisation	Joris Roelofs
	Super Nova: Wayne Shorter, Composer/Improviser	Barbara Bleij
	Developing Creativity	Sander van Maas
Electives of the Classical Dept open to jazz students	Electronic Music	Jorrit Tamminga
	Moving and Musicking with the Elderly	Jacqueline Koop, Ellen van Hoek
	Musical Texture	Amit Gur

Patterns of Performance: The Neuroscience of Improving Experts	Beorn Nijenhuis
Technological Strategies in Composing and Performing	Arnold Marinissen
Tuning and Temperament	Jorge Isaac, Rafael Reina

Individual credits

This component may be determined by the students themselves, to focus on a 'specialism' or topics of a special interest. Students are required to earn a minimum of 10 credits in this component throughout the master's programme.

Options

There are several ways to put this component together, for example:

- * by taking an extra master's elective (see the list above, under Theory)
- * by taking an extra ensemble (see the list above, under Ensembles)
- * by attending courses at the University of Amsterdam
- * by participating in extracurricular activities to gain more professional experience
- * by participating in projects and masterclasses
- * by taking a bachelor's elective (please view MyAHK -> CvA Jazz)
- * by courses listed below

When in doubt, please consult with the study advisor.

Introduction to Advanced Rhythm

Please note: this is the course that up to the 2019-2020 was called 'Advanced Rhythm'.'

Rhythm is one of the elements that clearly differentiate music of before and after the beginning of the twentieth century. Additionally, the expansion of rhythmical possibilities has been one of the cornerstones of the last hundred years, whether through western development or through the borrowing from non-western traditions.

'Introduction to Advanced Rhythm' is a course that sets the very basic foundations of the material that will be further explored and practiced in the four-year programme 'Advanced Rhythm'. The core elements imparted in this introductory course are:

- * How to phrase in quintuplets, sextuplets and septuplets with more accuracy
- * Crossing accents over beats and barlines.
- * How to start creating a better sense of pulse in the musician

The course can be taken either in the first or second period. If taken in the first period, the student can follow simultaneously the first year of 'Advanced Rhythm'.

Oyens

term 1st or 2nd term, please state your preference with your registration assessment A short practical exam. Missing no more than 3 lessons will be allowed

credits 3

Practical Studio Technique for Master Students

Although this course has some aspects in common with the bachelor's course in studio technique, (which focuses on demystifying and understanding the recording process), the focal point is quite different. The Practical Studio Technique course is built around working with Pro Tools, Ableton and location recording. In addition to the regular lessons you will have the possibility to make your own recordings with the exclusive 538 mobile recording studio. These recordings will be discussed in the lessons and are an important part of the learning process.

At the end of the course you will know more about: Pro Tools, Ableton, plugins, acoustics, microphone placement, mixing and how to make your own great sounding recordings from a musicians/producers perspective.

During the course there will be several six-hour recording sessions in the studio of the CvA, with emphasis on recording acoustic instruments and comparing different types of microphones.

The EWI (Electric Wind Instrument) for the woodwind player

Learning Objective

The EWI is an innovative instrument designed for the woodwind player. It is a tool of composition as well as a live instrument. Into the Box is an introduction course/workshop that introduces woodwind players to this instrument and to the world of live electronics. The course is open to students of the following instruments: saxophone, flute, clarinet, recorder, oboe, and bassoon.

Course Description

Approaching the instrument: presenting the challenges of playing the EWI. Discussing subjects such as sound/timbre, technique and musical expression. Discussing the featured elements of the EWI, presenting a series of exercises and etudes written especially for the EWI with the goal to obtain basic control.

The history of the instrument and an overview of its players: talking about key players of the EWI, transcribing and analyzing selected solos. Making a comparison between their playing on the EWI and on their acoustic instrument.

Playing the music, not the instrument: a new approach to transcriptions, incorporating sound characteristics. The student will be asked to bring in transcriptions of his or her choice with the focus to transcribe not only the notes but also the playing characteristics of the instrument (articulation, featured technique, use of sound production, use of effects and more) with the goal to create awareness over new playing possibilities. Musical examples will be shown in the introduction and during the course.

Course details

teachers Itai Weissman term 1st or 2nd term

class size max. 5

method of instruction group lessons, weekly classes of 2,5 hours

assessment The student will write short pieces for the EWI, focusing on its

special features (range, sustain/polyphony, interval

lock/harmonizer) with the goal to perform the music solo or with

an ensemble

study materials It is possible to work with EWI's available at the conservatory. The

student can sign paperwork and take the EWI home for study. A reader will be distributed containing all necessary information (text, exercises, etudes, transcriptions and exemplary compositions made by the

teacher)

credits 5

Virtual Orchestration for composers and arrangers

Learning Objectives

Learning how to make your own professional audio production, especially through virtual orchestration.

You will learn to convert your own compositions into good sounding demos and also learn skills to make convincing end products out of them.

Working with a DAW, soundlibrary's for different occupations, exporting from sibelius, recording techniques, mixing and mastering techniques, audio effects and introduction to analog or software synthesisers as an instrument group within the orchestra.

The student builds up a portfolio and is prepared for the professional field with the latest musical technology.

Course details

teachers Jelle Verstraten, Arend Bruijn and Hans Nieuwenhuijsen

term 1st or 2nd term

class size max. 5

method of instruction lectures and tutorials, 27 x 120 minutes

assessment

Passing grade for three projects that are assessed for quality,

proces and result:

MIDI Mockup of an example from the literature, with a focus on

strings

MIDI Mockup of a piece by Tchaikovsky or Stravinsky, with a

focus on horns and percussion

Virtual Orchestration final assignment: orchestration for the

complete orchestra or big band

study materials Mixing secrets for the small studio - Mike Senior

A guide to midi orchestration - Paul Gilreath Virtual orchestra composition and production - J. Gerber The guide to MIDI orchestration - J. Walden

credits 1 or 2

COMPOSING FOR FILM COURSES

Credits overview

The categories of courses within the Master of Music in Composing for Film are slightly different from those of Master of Music in Jazz as mentioned on page, as the component Ensembles is replaced for Film Projects. Also division of credits between this component and the Principal subject, differs from that of instrumental master programmes in that the relation is 40:40 instead of 60:20.

Category	Course title	Credits Year 1	Credits Year 2	total
1. Principal study	CVA Principal Subject	20 EC	20 EC	40
2. Film Projects	NFA Film Projects	20 EC	20 EC	40
3. Research	Research		10 EC	10
4. Theory	NFA Subjects	5 EC		10
	Projects, Workshops, Excursions & Seminars	5 EC		
5. Individual credits	Master Electives	5 EC	5 EC	10
	Individual Credits	5 EC	5 EC	

CvA Principal Subject Composing For Film

Group lessons: Film Analysis on dramatic content and scoring techniques, Analysis lessons on orchestration. Scoring for separate film fragments and scoring for film sequences in context. Practical assignments on drama spotting. In the course of these subjects students will gain practical experience and develop their film scoring skills.

Individual lessons: Preferred subjects, personal feedback on Practical Assignments and NFA Film Projects results (optional: together with NFA directors)

NFA Film Projects

NFA 3rd Year Film Projects

Practical experience! Collaboration with 3rd year NFA-students on film projects from concept to final product.

Wednesday Coaching Day: During the second semester a Coaching Team of teachers will frequently evaluate the postproduction progress of each NFA 3rd year film project.

Teachers Ben Zijlstra, René van Uffelen, Mart Dominicus, Jurre Haanstra, a.o.

Time/location In the period of INTRODUCTION NFA the development phase of the

3rd year films has already begun: scenarists are in the process of writing scripts, shooting will take place in Nov./Mar. and post-production in Dec./Apr. In consultation with the NFA coaching teachers, it will be decided when and to what film project(s) the

composers will be assigned.

Evaluation Final evaluation

Level MA 1 Credits 20 EC

NFA Final Exam Film Projects

Collaboration with 4th year NFA-students on final exam films from concept to final product.

Wednesday Coaching Day: During the second semester a Coaching Team of teachers will frequently evaluate the postproduction progress of each NFA final exam film project.

Teachers Ben Zijlstra, René van Uffelen, Mart Dominicus, Jurre Haanstra, a.o.

Time/location The production period of the final exam films (shooting and post

The production period of the final exam films (shooting and post production) starts in September. Directors and composers of 3d year films may already have decided to continue their collaboration on their

mutual final exam project. In consultation with the NFA coaching teachers, it will be decided to which final exam film the other composers will be assigned.

Evaluation Final evaluation

Level MA 2 Credits 20 EC

Research

Master's students carry out thorough research into a subject related to their principal study. At the end of the first season students are required to deliver a synopsis approved by the research team. Students conclude their research with a dissertation and a public presentation during the second semester of second season (e.g. a lecture, recital, workshop or interview).

See also a detailed description of the component above, in Chapter "Research" (page 15)

Teachers Walter van de Leur, Yaniv Nachum + supervisors (CvA, NFF or

external)

Level MA 2 Credits 10 EC

NFA Subjects

A total of 5 EC in the first year of the master, to be collected by following activities:

INTRODUCTION NFA

Composers and 3rd year NFA students will be shown the importance of close collaboration on film projects from the earliest stage possible. Introduction to Coaching Day: recurring evaluation sessions with a team of study leaders.

Period: September

Credits 2 EC (together with students FILM POST PRODUCTION EVALUATION)

COMPOSERS & DIRECTORS PRESENTATION

Purpose/Content Mutual presentation of CVA composers and NFA directors in order to put together crews for the 3rd year film projects. Composers will get about 10 min. to introduce themselves and present their work (with or without image). Directors (or scenarists) also will get about 10 min. to introduce themselves and give a short description of the film they plan to shoot.

Period October

Credits 1 EC (together with 3rd Year Film Festival)

PITCH DIRECTORS (optional) Meeting

about 3rd year film plans.

3rd YEAR FILM POST PRODUCTION EVALUATION

Evaluation and presentation of NFA 3rd year film projects. Projects are evaluated by an external committee.

Period three days in March, 3 days in May

Credits 2 EC (together with INTRODUCTION NFA)

THEORY OF SOUND

Theory lessons to familiarize composers with the way filmmakers approach sound.

Teacher Ben Zijlstra

Teaching method In total 4 sessions with Ben Zijlstra, followed by written

assignments

Study material "Cinematic Sound" (BZ)

Evaluation Attendance + Tests: 1 EC, Written sound analysis on 3 films: 1 EC

Credits 2 EC

PRACTICAL LESSONS: Phenomenology, Audible Space

Teachers Ben Zijlstra and Cilia Erens

Teaching method Sessions schedule per student will be announced.

Audible Space In small groups, students listen blindfolded to their surroundings at

various locations outside the NFA building.

SOUND DESIGN AND MUSIC

Two full days of lectures in October on Sound Design and the collaboration between a sound designer and composer. 3rd Year directors will also take part.

Teacher Frank van der Weij

Evaluation Active participation required

Credits 1 EC

PRESENTATION 4th YEAR PLANS

Meeting composers & directors about 4th year film plans

KEEP AN EYE FILM ACADEMY FESTIVAL

Showing the graduation works of all Film Academy students - bachelor and master.

Period 5 days at the end of June / beginning of July

Location Eye Film Museum

Projects, Workshops, Excursions & Seminars

SCHOOL OF SOUND - London

Visit with NFA editing and sound students to Symposium on sound with image, which is held every two years. Discover the powerful effect of sound in film. Around 15 renowned speakers (sound designers and composers) share their vision. Former speakers include Walter Murch, Gabriel Yared, Michel Chion and David Lynch.

Teachers Ben Zijlstra, René van Uffelen, Michel Schöpping, Jurre Haanstra, a.o.

Period spring 2022

Credits 2 EC

SEHSÜCHTE INTERNATIONAL STUDENT FILM FESTIVAL – Potsdam

Visit with NFA students at a 3-day festival organized by HFF students (Potsdam film academy). Presentation of international film students' movies, excursions to Filmstudio's Babelsberg and Filmmuseum Berlin.

Teachers ?

Period spring?
Credits 2 EC

INTERNATIONAL FILM FESTIVAL ROTTERDAM - IFFR

Introduction to international developments in film. Meeting future colleagues and networking. Along with 1st year NFA students a number of films will be watched. Debates with filmmakers are organized. Based upon a previously given assignment, a written report should be made about the films' content, the placing of sound and music, and what these films mean to the individual student.

Teacher Ernie Tee

Period 2 weeks in late January/early February
Evaluation Written report, active participation

Credits 2 EC

PRESENTATION 4th YEAR PLANS

Meeting composers & directors about 4th year film plans

FINAL EXTERNAL EVALUATION

Evaluation of the final exam films (documentary and fiction) by an external committee.

Period June 2022 at the NFA

KEEP AN EYE FILM ACADEMY FESTIVAL

Showing the graduation works of all Film Academy students - bachelor and master.

Period 5 days at the end of June / beginning of July

Location Eye Film Museum

Postgraduate Electives

MUSIC STUDIO TECHNOLOGY (CvA)

State of the art studio technique on recording, use of ProTools, Ableton, AVID.

Teacher Attie Bauw

VIRTUAL ORCHESTRATION (CvA)

Virtual orchestration, state of the art music production techniques

Teachers Arend Bruijn, Hans Nieuwenhuijsen, Jelle Verstraten

CONDUCTING (CvA)

Conducting technique and conducting to picture.

Teacher Jacob Slagter

INSTRUMENTATION (CvA)

Orchestration techniques of various classical music traditions.

Teacher

HARMONY & ANALYSIS CLASSICAL MUSIC (CvA)

Classical music theory (harmony/analysis and counterpoint) and analysis of twentieth century music.

Teacher Walther Stuhlmacher

FILM ANALYSIS (NFA)

Observing the 'signature' of some authors/film makers. Analysis of past and present films – both documentary & fiction - will give insight into the way in which different filmmakers realize their ideas. Special attention is paid to which narrative techniques and form elements have been used, learning to name the used techniques and coming to understand the deep intentions of the filmmaker.

Teacher Ernie Tee

Evaluation In consultation with Prof. Tee:

Credits 2 EC

GENRES: DEFINITIONS & CHARACTERISTICS (NFA)

Genre films are made according to certain patterns, they tell a certain kind of story and have a certain design. Genres: western, horror film, film noir, science fiction/fantasy film.

Teacher Ernie Tee

Evaluation In consultation with Prof. Tee:

Credits 2 EC

Individual Credits

In consultation with Edwin Paarlberg

More details are outlined above in Chapter "Individual Credits" on page 19.
